

Audio Engineering & Video Editing (AEVE)

Logic Pro Unit 1

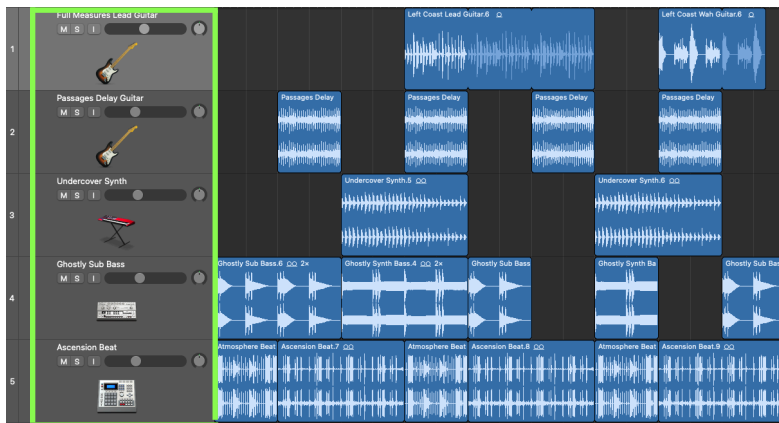

Logic Pro Project 1: Loops [6pts]

Using the loop library only, create a project following the following perimeters.
1 point per line item. Each line is score “all or nothing”. No partial credit awarded.

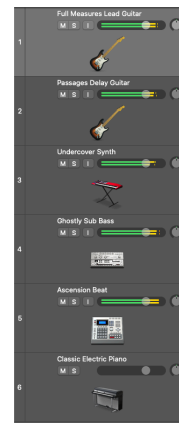

1. Minimum of 5 tracks (layers/sounds)
(Examples: drums, bass, guitar, synth, etc)
2. Minimum of 32 measures
3. Obvious attempt to Balance project (no peaking/going into red)
4. Activate Automation (“A”)
(Examples: volume, panning, echo)
5. Musical commonality - musically makes sense - isn’t incoherent
6. No “Block” or “Staircase” arrangements. It’s ok to have “Gray Space”.

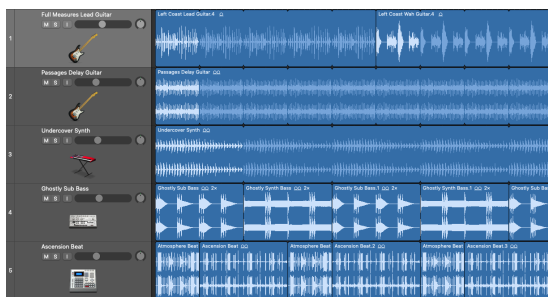

Arrangement with Gray Space and Mixed/Balanced

Not Mixed/Balanced

Block Arrangement (BAD)

Staircase Arrangement (INCOHERENT)
